COORDINATION CHEMISTRY REVIEWS VOLUME 129, NUMBERS 1–2, JANUARY 1994

Contents

Coordination chemistry of diphosphinoamine and cyclodiphosphazane ligands
M.S. Balakrishna, V. Sreenivasa Reddy, S.S. Krishnamurthy (Bangalore, India), J.F. Nixon and J.C.T.R. Burckett St. Laurent (Brighton, UK) 1

Copper complexes of heterocyclic thioamides and related ligands
E.S. Raper (Newcastle upon Tyne, UK) 91

The coordination chemistry of TCNE, TCNQ and related polynitrile π acceptors
W. Kaim and M. Moscherosch (Stuttgart, Germany) 157

Chromium(III) cyano-am(m)ine complexes
E. Zinato (Perugia, Italy) 195

Erratum 247

Corrigendum 247

Conference calendar 249

Subject index 253

Some Papers to Appear in Forthcoming Issues

Chloromercury(II) anions
D.A. House, W.T. Robinson (Christchurch, New Zealand) and V. McKee (Belfast, UK)

Influence of peripheral ligands on the métal–metal interaction in dinuclear metal complexes with *N*-heterocyclic bridging ligands
G. Giuffrida and S. Campagna (Messina, Italy)

Structural aspects of thiamine, its derivatives and their metal complexes, in relation to the enzymatic action of thiamine enzymes
M. Louloudi (Athens, Greece) and N. Hadjiliadis (Ioannina, Greece)
